Energy Forums in Europe

BELIEF
Building in Europe Local Intelligent Energy Forums

If you are looking for active European communities that:

- create and run Local Intelligent Energy Forums...
- prepare sustainable energy action plans...
- seek financial resources to turn these action plans into reality...
- implement and communicate sustainable energy initiatives and projects...
- share their experiences with others...

here are 20 shining examples...

If you represent a community or if you are a local stakeholder from a New Member State or Candidate Country and want to know more about how to create and run a Local Intelligent Energy Forum, visit www.belief-europe.org for more information.

BELIEF partners' commitment

We, the representative's of BELIEF, commit ourselves to work together and share our experiences in the common goal of promoting sustainable energy communities.

We believe that our actions will encourage and motivate others so that we can all contribute to the new energy future of our cities and Europe.
